EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Bob Hunt on June 5, 2008.

The application has been amended as follows:

2. Claims 1-12, 16-20 and 31 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 21-30, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on September 4, 2007 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the

provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

3. The following is an examiner's statement of reasons for allowance: Prior art fails to teach or fairly suggest a sample depositing system comprising an illumination source, a sample transfer device including a portion constructed and arranged to move in response to suitable illumination incident on the sample transfer device and a sample material carried by the sample transfer device. The system further comprising a controller that causes the illumination source to illuminate the sample transfer device and thereby cause the portion of the sample transfer device to move. Additionally, the movement of the sample transfer device causing at least a portion of the sample material carried by the same transfer device to be controllably separated from the transfer device and deposited on a work surface. The portion of sample material being deposited without any part of the sample transfer device positioned adjacent the sample material separating from the sample transfer device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JYOTI NAGPAUL whose telephone number is (571)272-1273. The examiner can normally be reached on Monday thru Friday (10:00-7:30).
